

HOW IT WORKS

The Roll-A-Way curtain system gives you the ability to maintain your barn environment for optimum performance regardless of the weather. Its unique design allows the curtain fabric to stay tight in all positions from fully open to fully closed. The RAW curtains have a permanently mounted floating bottom aluminum roller tube. As the curtain lowers from the top down, the excess curtain material continually wraps on the rolling bottom tube thereby eliminating water entrapment and rodent infestation.

FEATURES

- Single curtain up to 10 ft. high.
- Combined with a bottom roll up curtain for larger wall openings.
- Available with pipe drive operating hardware.
- Can be operated manually or automatically
- Wind protection with nylon cord, pipe or straps.

INDUSTRIES

- Dairy
- Beef
- Goats
- Sheep

MATERIALS

Standard fabrene - 9 oz. curtain fabric is made from a woven polyethylene with clear coating on both sides giving maximum light penetration and maximum ultraviolet protection.

Optional Crystal Clear - 11 oz, high visibility curtain fabric.
