JULY 2024

MEET THE BOARD OF DIRECTORS

Nicholas Wilson
Territory Manager - Canarm
CFBA Board Vice President

Nicholas Wilson is Territory Manager for Canarm AgSystems

Meet CFBA Board Vice President: Nicholas Wilson

As the Vice President of the Board of Directors for the Canadian Farm Builders Association, my primary goal is to champion the advancement of sustainable and innovative farm building. I am dedicated to fostering collaboration among industry stakeholders, advocating for policies that support the growth and resilience of our farming communities, and ensuring that our members have access to the latest technologies and best practices. By promoting education, we aim to enhance the quality and efficiency of farm construction, ultimately contributing to the prosperity and sustainability of Canadian agriculture.

In my role as Vice President, I am part of the Executive Committee, which provides leadership and direction to the Board of Directors and oversees the general business of the organization.

I am also the chair of the Finance Committee and oversee the financial requirements for the CFBA.

Additionally, I lead the Membership Committee, which is responsible for approving membership, supporting membership retention, and driving membership growth in the association.

And just for fun, I'm a member of the Golf Tournament Committee, which plans our annual golf tournament for our members.

What to Look for in Farrowing Flooring

Paul Fallis, Vice President of Canadian Agriculture at Canarm AgSystems, discusses the key considerations for selecting a farrowing floor with Rachel Fishback at Swineweb, emphasizing the importance of sow comfort and loose housing in future designs.

New Product

DRAIN TANK

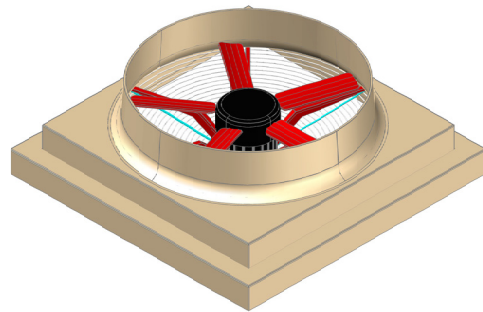

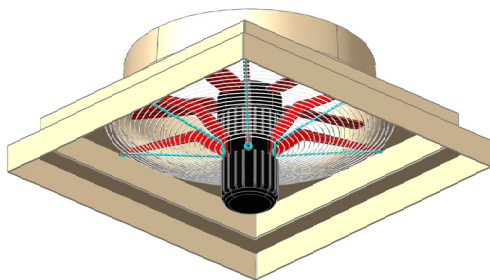

Our new drain tank features a built-in, hands free drainage tube for effortless maintenance. The integrated drainage tube allows for quick and easy water changes, reducing cleaning time and promoting a healthier environment. Available in lengths from 4 to 10 feet, and wall and floor mounting options.

CLAMPS

Introducing our new versatile clamp, designed to securely connect 2" pipes to 2" pipes or 2" pipes to 1 5/8" pipes. Each set is conveniently packaged in boxes containing 4 pairs.

CHIMNEY EXHAUST FAN MODULE

This new unit plastic molded fan mount comes completely assembled and ready to install in any of our PRP chimneys. Can be installed in new or existing chimneys and the 24" fan gives you some extra exhaust power to remove the warm, damp air out of your barn in cold weather.

Featured Product

Seamless Summit Nursery Flooring

The Seamless Summit Nursery Slat offers superior ease of cleaning, enhanced comfort, and outstanding durability, contributing to healthier pigs and improved economic efficiency.

- Unique "Seamless joining" system for easier cleaning
- V-shaped ribs for early disease detection
- Suitable for pigs up to 100 lbs
- Cost-effective with fewer required rails
- Large 24" x 48" slat size for reduced installation time
